

Adm. Inman's note:

Exec Secretariat--

Please reissue with corrected last page. I am very sensitive about reporting of policy guidance and this may be a case where ~~it~~ was not sufficiently explicit--all the more reason to ensure written record reflects what I intended. I am available to scan draft when in doubt.

*Inman - no more please*

Admiral Inman commented that when the Director discussed with him his role as DDCI, he was told that he would be expected to follow the Intelligence Community, Resource Management, Congressional affairs, and internal CIA matters, with exception of covert action and analysis. Admiral Inman said that he expects ~~to get~~ <sup>to get</sup> copies of everything sent to the Director from DDO and NEAC. ~~Since there may be occasions where he, rather than the Director, should take action.~~ He stressed that in all other areas including RM matters, he desires to be involved from the outset, kept informed, and have ~~all memos addressed to the Director go via him.~~
